

# My Collage Art

## *Vintage-inspired Story-Art*

Nancy Lefko, a lifelong artist, has been creating mixed media collage art for a number of years.

Nancy's work gives a "nod to the past," by using vintage images and creating visual stories to accompany those images. She is also inspired by nature and creates still life mixed media collages. Nancy enjoys creating custom collages; working with clients to produce a very personal piece, using copies of their own ephemera or souvenirs, in conjunction with backgrounds rich in texture and design.

Nancy also sells her original artwork and prints on Etsy and enjoys seeing her work in publications such as *Cloth, Paper, Scissors*; *Art Journaling by Somerset*; and *Somerset Studio* magazines.
